Dig out your stash of old buttons or purchase bags of plastic buttons to add color. In this class you can give free rein to your creative instincts as we use buttons as elements in design. Thread, wire, glue, cord, ribbon,

chain, paper, or anything else can be used as the connecting material using bead stitches, embroidery or knotting along with beads, charms or other components. Think jewelry, fabric embellishment or get whimsical and make button dolls! Lots of samples will be available to get you started.

Class Fee: \$220; housing fee: \$90.
